

Applications

- I This datasheet is the characteristics of ceramic PTC heating element
- II For fragrance diffuser
- III Compliant with RoHS directive.
- IV Halogen free requirement.

Dimensions

Performance

Materials & Properties	RT125B-01	RT125B-02
1. Plastic material:	PA66 is flame retardant;	
2. Wire:	Teflon high-temperature wire;	
3. Ceramic:	95% white;	
4. White ring:	Aluminum;	
5. PTC heating temperature:	205 ± 5°C;	205 ± 5°C;
6. Operating temperature:	107 ± 7°C;	113 ± 7°C;
7. Voltage:	220V, 50Hz;	
8. Power:	3W;	
9. Response time:	120S
